Purpose of Education

Kulapati K.M. Munshi

Education would fail ignominiously in its objective, if it manufactured only a robot and called him an economic man accenting the adjective 'economic' and forgetting the substantive 'Man'. A university cannot afford to ignore the cultural aspects of education. Science is a means, not an end, whereas culture is an end in itself. Even though you may ultimately become a computer programmer, a scientist, a doctor, or an engineer, a teacher or a lawyer, you must, while in college, absorb fundamental values which will make you a man of culture. An engineer has not merely to build bridges; he has to be a devoted husband, a kind father, a friendly neighbor, a dutiful citizen, and a man true to himself. He will have trials and tribulations; his heart will fail him at times; he will then need the spiritual strength which true culture alone can give. We, at Bhavan's thus aim to achieve a holistic development of personality through education which in the view of Bharatiya Vidya Bhavan, is both modern and traditional."

"India will once again be acknowledged as the Vishwa Guru a superpower that embodies the ideals of Vasudhaiva Kutumbakam - The World is One Family"

Kulapati. K. M. Munshi

Founding Father of Bharatiya Vidya Bhavan

About the College

*Education is not
preparation for life;
education is life itself.*

- John Dewey

*When knowledge is rooted deep in the ethos of
Indian culture and yet is a reflection of the world,
you get an institution that's truly global in nature."*

Prin.(Dr) Zarine P. Bhathena

Welcome to Bhavan's College - where learning meets global standards.....

Dear Students, you are entering into an Institute, that right from its inception, has grown from strength to strength. The status of "AUTONOMOUS" from UGC, the apex educational body of India for a period of ten years (2020-21 to 2029-30) has added to our academic stature, enabling this college situated in the biggest green lung of Mumbai to be amongst the leading educational institutions of Mumbai City.

While we are enamored by the promises that autonomy holds for us, we do not underestimate the challenges that it would throw up and we are geared to meet it with our distinctive tradition of "committee system, greater participation of the faculty in the administration of the college, the enormous good will of its alumni and the credibility that it has established over the years, by strictly following the criteria of merit, transparency, and social justice". To top it all, we have a rich research culture that works on socially relevant issues. The "Clean water program" undertaken by Bhavan's Research Centre (Microbiology) exemplifies the initiatives taken to create a strong partnership with society and industry.

While academic excellence is our major thrust, the College is also devoted to prepare the students to be learner for life, groom them to face the challenges of tomorrow and encourage them to be socially relevant. We constantly endeavor to live up to this ideology and inculcate this into everything we do, with the aim that we will be able to ensure that our students grow to their full potential, to pass out as men and women competent to bear responsibility in all walks of life.

In this quest, our alumni and parents are our main support and strength and their consistent support empowers us to do more and more.

With NEP 2020 implementation duly approved by UGC and Government of Maharashtra & effective from 2023-24, the college has started 3 years graduation degree within the Choice Based Credit System (CBSC Scheme) with multiple entry and exit options and we continue the process this year also.

I am confident that all Bhavanites will make themselves stronger day by day, adding to the grandeur of the college.

About the College

Bhavan's College

Bhavan's College established in 1946, to preserve and propagate Bharatiya Vidya, has throughout the post-independence period, served the society's educational needs, by being deeply committed to Bhavan's Culture, Bhavan's Traditions and Bhavan's Values. Due to the dynamic, versatile and visionary leadership, the Bhavan's Campus at Andheri has been enriched by bonding and networking between the Sister Institutions on the Campus; such that opportunities abound for Bhavanite's to learn the ancient and the new, to explore international endeavors and yet remain strongly rooted in Indian Culture. Thus Bhavan's campus at Andheri truly lives up to the Vision of its founder Kulapati Dr. K. M. Munshiji. For Bhavan's education means **"Amrutam Tu Vidya"** i.e. **"Knowledge is Nectar"** as it strives to bring together sound academic achievement with an extensive, vibrant co-curricular program that includes sports, culture and leadership training.

Bharatiya Vidya Bhavan

Bharatiya Vidya Bhavan, the parent body of Bhavan's College, is a voluntary, ever-growing, apolitical national movement with an international outlook, devoted to life, literature and culture. Kulapati Dr. K. M. Munshiji founded the Bharatiya Vidya Bhavan in 1938, almost a decade before India's independence. Today it is fondly referred to simply as "The Bhavan" and has under its umbrella 320 constituent institutions with 112 centers in India and 7 centers overseas. Shri Munshiji was a multifaceted personality with a brilliant career and his firm belief in Indian culture and values has been the guiding force of the Bhavan's success and that of the many establishments founded by him.

About the College

Bhavan's College situated in the heart of Mumbai is one of the Bharatiya Vidya Bhavan's first institutions of higher education founded on Kulapati Dr. K. M. Munshi's firm belief in Indian culture and values. The foundation stone of the College was laid by former President of Independent India Dr. Sarvepalli Radhakrishnan and the College was inaugurated by Sardar Vallabhbhai Patel, the Iron Man of India in 1946. The College though Autonomous is affiliated to the University of Mumbai and is eligible for Academic and Research grants from University Grants Commission due to its 2(f) & 12(B) Status. Bhavan's College is one of the very few colleges which have the privilege to have completed 75 years of dedicated service in the field of education and celebrated its Diamond Jubilee in the very first decade of the new millennium.

The College is located at a walkable distance from the railway station at Andheri (W) and the Azad Nagar Metro Station and approachable by road and a number of bus routes. The College situated within 42 acres of vast green scenic campus has a well-equipped library, computer and scientific laboratories, huge play-ground, Gymkhana, Gymnasium, and facilities for NCC and NSS for girls and boys.

With grants from UGC, the College has established a UGC - NRC (UGC-Network Resource Centre) which provides internet access to students for academic purpose. The College has a host of qualified, experienced and dedicated teachers to guide the students at the undergraduate as well as post graduate level. The College has a strong faculty of eminent and versatile teachers with over 50% possessing a Doctorate Degree and about 10% involved in offering consultancy services.

However, the main strength of the College is the large number of students that enrolls such that since the last few years, the College is registering per year about 4000 students

The college prides itself on building effective relationships with all its stakeholders, especially in the corporate world. Strong academia-industry linkages have manifested into efficient student placements and faculty support.

The admission process followed by the college has been emulated as a best practice by several other colleges in Mumbai. The college has introduced several new post-graduate and undergraduate programs in the last five years. There has been a great thrust on research, consultancy, and extension activities in the college. A significant development in the college has been infrastructure development with state-of-the-art conference room, seminar room, library, and classrooms, which are equipped with techno-savvy multimedia facilities

Continuous monitoring and evaluation of student progress are made through project work in all subjects, online tests, and class presentations. Innovative methods to increase class participation, examination reforms, and faculty development have been some of the other measures to make teaching-learning effective. Regular academic audit of performance has been strengthened and now identifies advanced learners, as well as slow learners, and 360-degree feedback of faculty helps in strengthening teaching-learning and evaluation.

The Creation of Management School for Events, Entertainment and Design housed in the new building, catering to Bachelors and Masters courses has added an additional feather in the achievements of Bhavans College to this year

Academic vocabulary at a glance

1. Program: A Program is a set of courses that are linked together in an academically meaningful way and generally ends with the award of a Degree Certificate depending on the level of knowledge attained and the total duration of the study. A set of courses leading to award of degree like B.A; B.Sc; B.Com; M.Sc

2. Course: A 'course' is essentially a constituent of a 'program' and may be conceived of as a composite of several learning topics taken from a certain knowledge domain, at a certain level. All the learning topics included in a course must necessarily have academic coherence, i.e. there must be a common thread linking the various components of a course. Course in simple terms refers to the earlier concept of "Subject" e.g. a course in History, a course in Rural Marketing, course in Chemistry.

3. Bridge Course

Bridge course is visualized as Pre semester preparation by the learner before the commencement of regular lectures. For each semester the topics, whose knowledge is considered essential for effective and seamless learning of topics of the Semester, will be specified. The Bridge Course can be conducted in online mode. Online content can be created for the Bridge Course Topics.

4. Module and Unit

A course that is generally an independent entity having its own separate identity is also often referred to as a 'Module' in today's parlance, especially when we refer to a 'modular curricular structure'. A module may be studied in conjunction with other learning modules or studied independently. A topic within a course is treated as a Unit.

5. Self-Learning

Certain topics will be marked for Self-Learning.

Topics for Self-Learning are to be learned independently by the student, in a time-bound manner, using online and offline resources including online lectures, videos, library, discussions, field work, internships etc. The purpose of evaluative sessions is to assess the level of the students' learning achieved in the topics earmarked for Self-Learning.

The teacher's role in these evaluative sessions will be that of a Moderator and Mentor, who will guide and navigate the discussions in the sessions, and offer concluding remarks, with proper reasoning on the aspects which may have been missed by the students, in the course of the Self-Learning process.

6. Credit Point

Credit Point refers to the 'Workload' of a learner and is an index of the number of learning hours deemed for a certain segment of learning. These learning hours may include a variety of learning activities like reading, reflecting, discussing, attending lectures/counselling sessions, watching especially prepared videos, writing assignments, preparing for examinations, etc. Credits assigned for a single course always pay attention to how many hours it would take for a learner to complete a single course successfully.

7. Credit Completion and Credit Accumulation

Credit completion or Credit acquisition shall be considered to take place after the learner has successfully cleared all the evaluation criteria concerning a single course. Learner's level of performance above the minimum prescribed level (viz. grades/marks obtained) has no bearing on the number of credits collected or acquired. A learner keeps on adding more and more credits as he completes successfully more and more courses. Thus, the learner 'accumulates' course-wise credits.

Note: The Ordinances and Regulations given below apply to Under Graduate Programs of the University.

1. The minimum duration of the Under Graduate Program will be of 3 years in the Semester pattern i.e. from Sem. I to Sem. VI.
2. The degree will be awarded to a learner who completes 132 credits of the program in a period of 3 to 6 years from the year of enrolment to semester VI.
3. Types of courses included in a degree program are:
 - ◆ Compulsory discipline specific core courses as Major and Minor
 - ◆ Ability Enhancement course (AEC)
 - ◆ Discipline Specific elective (DSE)

- ◆ Value enhancement Course (VEC)
- ◆ Vocational/Skill enhancement course (VSEC)
- ◆ Generic/Open Elective (OE)
- ◆ Indian knowledge system (IKS)
- ◆ Field Projects/Research projects/Community Engagement Program (FP/RP/CEP)
- ◆ Co- Curricular Activities (CC)

8. Scheme of teaching and examination

The Scheme of Teaching and Examination shall be divided into TWO components, Internal assessment and External assessment (Semester-end examination) for each course of the program.

The performance of the learners shall be evaluated in

- **Internal Assessment with 40% marks by way of continuous evaluation**
- **Semester End Examination with 60% marks by conducting the theory examination.**

Internal Assessment

It is defined as the assessment of the learners based on continuous evaluation as envisaged in the credit-based system by way of participation of learners in various academic and correlated activities in the given semester of the program.

Sr.No	for a 100 marks paper
1	class test / to be conducted in the given semester (20 marks)
2	One assignment based on curriculum (to be assessed by the teacher Concerned) (20 marks)

- **Project and Assignment:**

Project or Assignment can be in the following forms

- Case Studies
- Videos
- Blogs
- Research paper (Presented in Seminar/Conference)
- Field Visit Report
- Presentations related to the subject (Moot Court, Youth Parliament, etc.)
- Internships (Exposition of theory into practice)
- Open Book Test
- Any other innovative methods

Semester end examination

It is defined as the examination of the learners based on performance in the semester-end theory / written examinations.

Semester End Examination- 60 Marks

Duration – These examinations shall be of 2 hours duration.

Passing standard

The learners to pass a course shall have to obtain a minimum of 40% marks in aggregate for each course where the course consists of Internal Assessment & Semester End Examination. The learners shall obtain a minimum of 40% marks (i.e. 16 out of 40) in the Internal Assessment and 40% marks in Semester End Examination (i.e. 24 Out of 60) separately, to pass the course and a minimum of Grade D in each project, wherever applicable, to pass a particular semester.

However, his/her marks of the Internal Examinations shall be carried over and he/she shall be entitled to the grade obtained by him/her on passing.
2. A learner who PASSES in the Semester End Examination but FAILS in the Internal Assessment of the course shall reappear for the Internal Examination of that course. However, his/her marks of the Semester End Examination shall not be carried over

In the case of a learner who is reappearing for the Internal Examination, the examination will consist of one project of 40 marks which will be divided into 20 marks for the documentation of the project, 10 marks for the presentation, and 10 marks for the viva and the interaction
