Department of Computer Science &  
NexLogix : Excellence Begins with Code and Data

PRESENTS

## Intelligent Things In Motion

By Second Year B.Sc. (Computer Science) Students  
Come and explore innovative projects, creative ideas, and smart technology  
solutions designed by young minds.

Date: 24th January, 2026  
Time: 9:00 am – 2:00 pm  
Venue: SFC FOYER

### Showcased Projects

- |   |  |
|---|--|
| 1. Smart Green Zone Guardian                  | 9. IoT-Enabled Solar-Powered Eco-Friendly Car        |
| 2. IoT Home Automation System                 | 10. Solar-Powered Environment Monitoring Station     |
| 3. IoT-Based Smart Energy Conservation System | 11. IoT-Based Gas Leakage Detection System           |
| 4. Smart Green Street & AQI Monitoring System | 12. Solar-Powered River Cleaning Robot               |
| 5. IoT Weather Monitoring System              | 13. Advanced Smart Water Management System           |
| 6. IoT Green Energy Auditor                   | 14. Footstep electricity generation & road pollution |
| 7. Fire Fighter Robot                         |  |
| 8. Footstep Energy Harvesting System          |  |
